

BOUDOIR & GLAMOUR

BOUDOIR & GLAMOUR

WHO WE ARE AND WHAT WE DO:

My name is Josh and I am the owner of Frost Lake Films. My passion for creating art is through capturing people. From weddings to boudoir a majority of my work involves working with people to tell their stories. Working in various genres with people has given us a particular skill in which we can work just as well in a studio as on location.

With our boudoir and glamour shoots, our goal is to create a fun, relaxed and safe environment in which you can show off and be you. Having you be comfortable and enjoying the process is key to having you show off your intimate and sensuality.

Capturing these intimate moments takes time and skills that not every photographer possesses. This, coupled with the multiple mediums that we deliver, means that our unique skills and styles are staples of our artistic vision. We want to ensure that your shoot reflects your sensuality while reflecting a final artistic product.

BOUDOIR & GLAMOUR

BOUDOIR

Boudoir photography is a method of expressing yourself in a manner no other form of photography will provide. Working with a professional will allow you to express your beauty, confidence and intimacy. What better way to immortalize your sensuality than through an intimate medium such as this?

This unique style of photography makes for fantastic gifts for yourself or your significant others. Be it Christmas, birthdays, Valentines, or wedding gifts; they work for any gift-giving season. Alternatively, you can do it for yourself.

Included with all packages is an hour-long consultation meeting, to chat about posing, outfits, and hair and makeup recommendations.

Mini Package

Our basic package gets you a one-hour shoot in an outdoor setting (weather permitting), or in your home. The final product will be 25-30 photos that are fully edited and delivered via an online gallery. We recommend one to two outfits for this shoot

- 30 minute shoot
- 10-15 photos
- 1 hour consultation
- Home or Outdoor shoot
- Private online gallery

ADD ONS

35mm Film

Shooting on 35 mm film gives a unique and retro look to photos. These photos are developed in-house, giving them the unique opportunity to be utterly analog if delivered in print. You can also have them scanned and delivered in an online gallery. With this add-on, you have the option to choose between various film stocks to ensure the colours and tones will fit the aesthetic you are looking for.

\$75

Additional Photos

This gives you additional photos from the shoot. We can add these to any package to increase the amount you have fully edited and added to your gallery.

\$5/photo

\$20/5 photos

Make up Artists

Our team has unique connections with local hairstylists and makeup artists, giving us an exclusive rate for boudoir sessions. This add-on will provide you with access to the makeup artist before and during the session if touch-ups are needed. This add-on will ensure that you look your best for these shoots.

\$120

Additional Hours

Add time to your shoot with additional hours. This is great if you are looking for more photos to be taken.

\$75/h

BOUDOIR & GLAMOUR

GLAMOUR

Our glamour shoots are designed for individuals and content creators alike. These videos can range to be more fashion-based or can focus on boudoir work as well. This is a unique style of video that people have raved about after sharing on their online platforms or with their significant others. Each package varies based on the number of videos you need as well as the resolution delivered.

Platinum Package

- Studio or Outdoor
- 4 hour shoot
- Custom music
- 4 videos
 - 4K + social media formatted videos
- Private online gallery

\$600

COMMON QUESTIONS

What should I bring?

When choosing what to pack, pack outfits that you love, and think you look great in. Your favourite jeans or dress for example. In addition, bring a few different sets of lingerie and as much jewelry you need to match. You can also bring unique outfits like sports uniforms or any other items you or your significant other find appealing.

We suggest packing a few pairs of shoes (comfy to wear in along with heels or boots) along with some make-up and a hairbrush in case you need a touch-up while we shoot. Our studio has a make-up station that you are more than welcome to use while we shoot.

How do I get my photos or videos?

Unless you get an add-on for prints, all your photos and videos will be delivered via a download link. This link will be available for you to download all your photos and videos for 1 month, after that it is taken down. If you order prints, we will mail them to you, or if you wish we can arrange a time for us to drop them off.

Should I get hair and make up done?

This is a special occasion on which you want to look your very best. Having a professional do your hair and make-up will certainly take some stress off you when getting ready for your shoot. You are more than welcome to bring them to the studio to do touch-ups. Alternatively, you can get this as an add on through us. We also have a few connections with makeup artists and get special rates from them.

BOUDOIR & GLAMOUR

What equipment do you use?

We are Canon fanboys to the max; so we use a variety of their cameras depending on the shoot that we are doing. Our main cameras are the Canon R5 and the Canon 5D MK IV. These cameras are industry standards for photography and are some of the bests in their class. The advantage to these cameras is that they can shoot a hybrid of photos and video, which makes them convenient for our style of shooting. When doing more serious video work, however, such as with the glamour shoots, we may also use our Canon C100 MK IIs as well. These robust cinema cameras have a bit more functionality than the other cameras making them ideal for specific use cases.

We primarily use a style of lens called the prime lens. This means that the lens doesn't zoom. The disadvantage is that we lose this functionality, but our styles conform better to using them. We have the full lineup of Canon's L series prime lenses: their 24mm, 50mm, 85mm are our go-to lenses, but we also use our 70-200 or 100mm macro.

Do you back up your work?

We know that this is an important moment for you, so we take a variety of steps to back up our work. First and foremost, we back up to two hard drives immediately after we finish shooting. This way we have a fail-safe in case one hard drive dies. Additionally, we back up current projects on Dropbox. This way they are also stored on computers that are in different locations again to ensure if anything happened to our hard drives there would still be a backup.

Can I order my own prints?

We highly encourage you to get prints, whether from us or from others. We work with a local printer (as a small business we highly focus on working with other local companies) and get a special rate as we order enough from them, however, if you want to print additional or have your own

printer you would prefer to use you are more than welcome too. We do ask however that you respect the art and have the work professionally printed. Print is an art, having it done by those who know how to do it well will definitely show through to the final product.
